

AMTA MI: Bridging to a Brighter Future

You're asking, we're listening and responding

You've asked for lower cost education sessions to be held in different parts of the state. More face-to-face get togethers to answer questions about CEs, licensing requirements, and challenges you're facing in the workplace. They're all coming in 2020.

What's it going to take to help you be more successful as an LMT in Michigan? Now's the time to let us know what the Michigan Chapter can do for you. [Contact us!](#)

We're headed your way with more CEs, legislative updates, and chances to connect.

Over 50 attendees from Michigan were at the 2019 National Convention in Indianapolis. It was a chance for many of you to meet your chapter volunteers and help us get to know you.

Here's a photo of some of the Michigan members! Were you there?

How up to date is your information?

No More Newsletters! Instead of long newsletters, we'll be emailing current news just a few more times a year! Updates on classes, Meet Ups and licensing info. Election and scholarship info coming in January!

[2020 Events Calendar](#)
