

Effective immediately, all AMTA Michigan Chapter meetings and events are cancelled through June 8th. 2020. Given the latest updates from the Centers for Disease Control & Prevention (CDC) and our state health officials, and in consultation with the AMTA national office, our chapter board of directors has decided it is in the best interests of our members to cancel our Spring Education Event originally scheduled for April 24-26th, 2020. Future education opportunities and meetings will be posted as dates become available.

The health and wellness of our members is the highest priority for AMTA and our chapter and that includes supporting safe learning and working environments. As stated by Michigan governor, Gretchen Whitmer:

"By practicing social distancing and taking aggressive action now, the state is working to mitigate the spread of coronavirus so we reduce the risk that our health care system becomes overwhelmed. This is about saving lives. Michiganders are tough and we are going to get through this, but it will require everyone doing their part. That means making smart choices and not putting yourself or others at risk by going out in public unless it is absolutely necessary."

In order to meet the governance requirement that we provide current Chapter and Financial Information, usually given out at the Annual Meeting, we are working with the National AMTA offices to find a way to bring that information to you.

Be assured that **all** of your chapter board, being actively working LMTs, understand much of what you're going through. We'll do our best to keep you informed.
