

May 18 LARA Stakeholder Workgroup

LARA is establishing a stakeholder workgroup to discuss recommendations to get massage therapy professionals back to work safely. A representative from AMTA Michigan has been accepted to the workgroup.

Before you ask:

- This is a VERY recent addition so we do not know who else is on the group, the guidelines or criteria that will be used, nor how soon answers will be given.
- We do not know the process involved. When we do, we'll share.
- There is no need to send us your recommendations; we've read all of your comments on previous posts here and other sites, and have full access to information from other states that have opened.
- We keep up with all the medical and health information from trusted sources, even the changes that come up regularly and will use that as part of our input as well.
- We do not know when we'll be back to work, nor what that will look like. That's the reason the workgroup is being formed.

We share your concerns that wise decisions will be made for the safety of all LMTs and our clients. As these decisions are made and information is released, we'll post it here and on our website.

Thank you for your patience and support. If you don't hear anything for a few days, it's because we haven't heard anything.
